FOREWORD

On February 24, 2022, a full-scale Russian invasion of Ukraine took place, which was accompanied by the active spread of Russian propaganda. Contrary to the constant flow of disinformation and despite the difficult situation in which the whole Ukrainian people found themselves, creators from all over Ukraine – illustrators and artists, polygraphists and poets were not silent – since then they have been reproducing and helping to spread the true state of affairs in their media spaces.

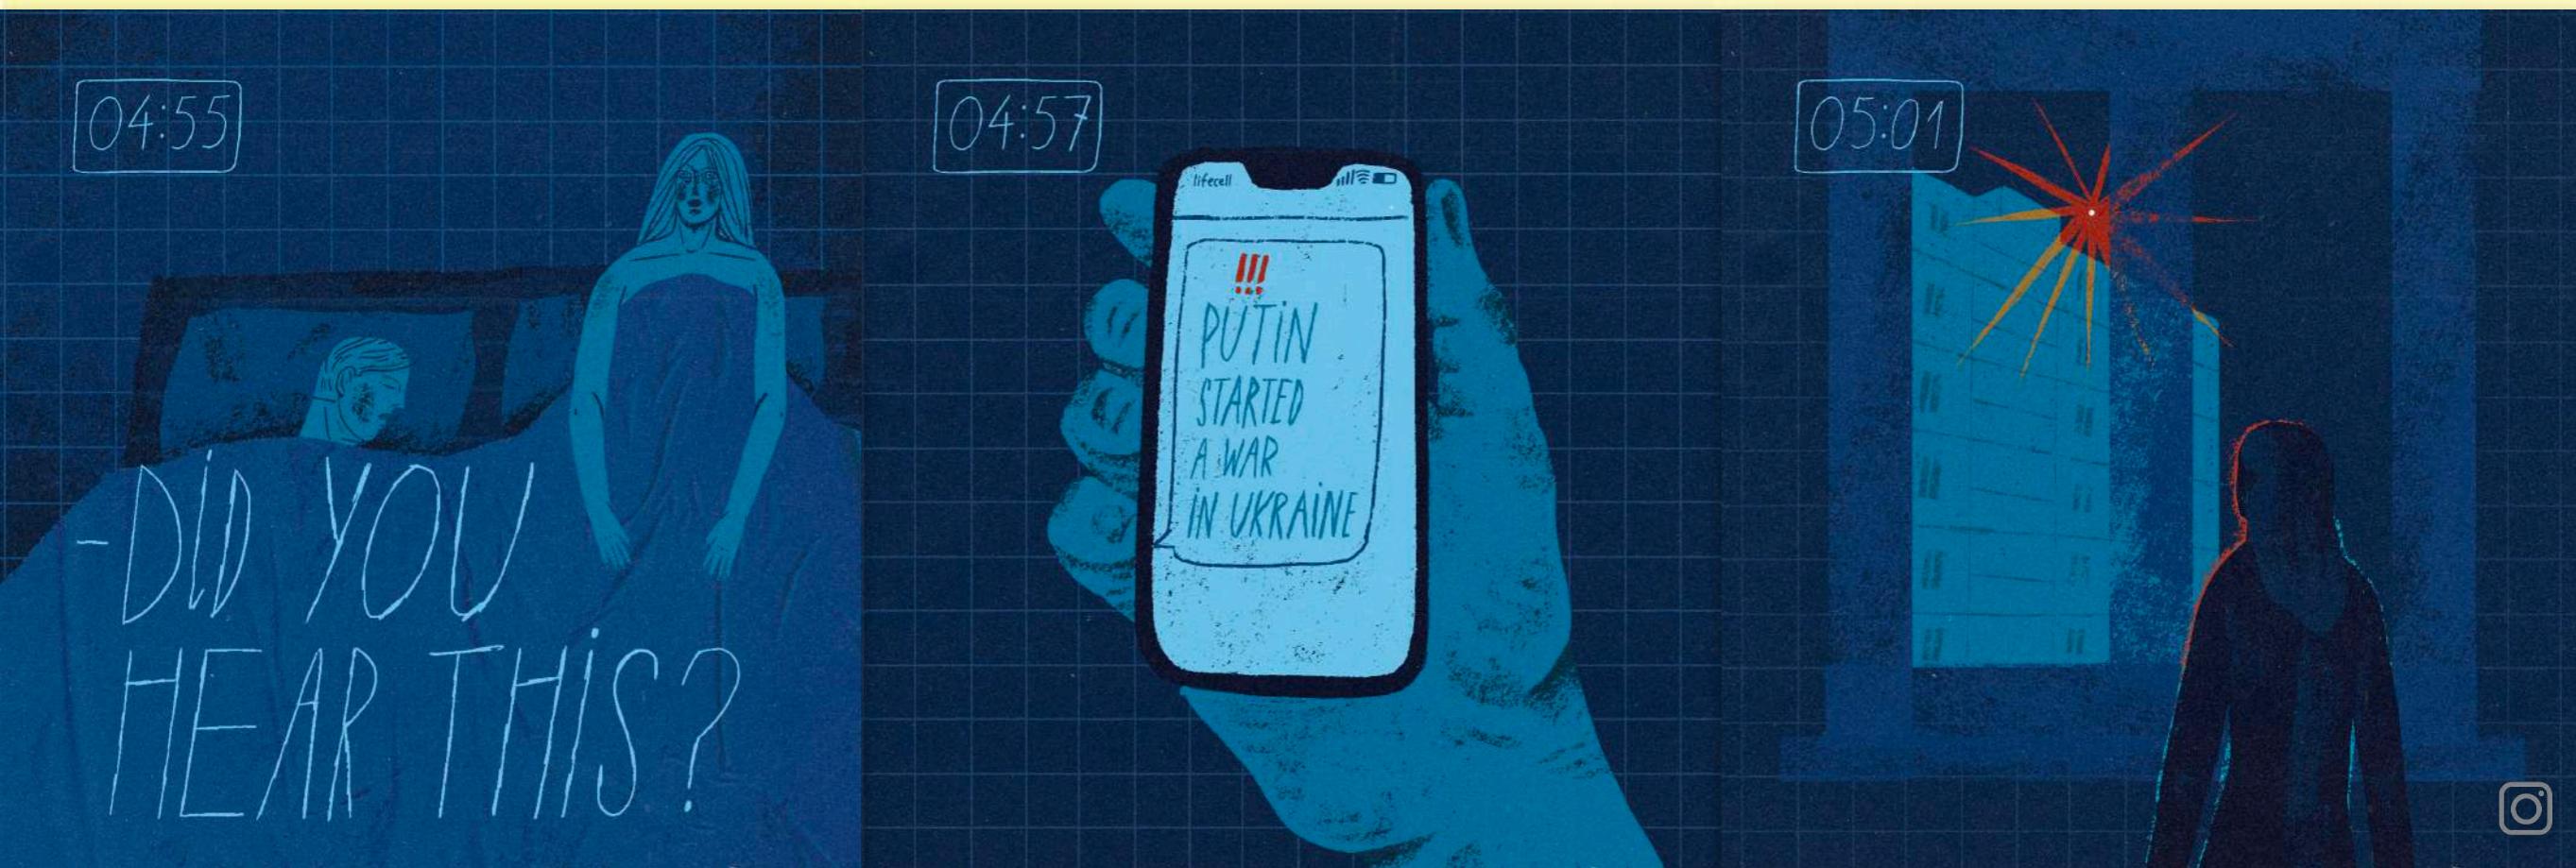

The collection "Events 2022 through the eyes of Ukrainian artists" includes about a hundred different works by talented artists. Some of the works have already been spread widely on the Internet, some could be seen on the street – on the walls, bus stops, on the structures for outdoor advertising (over road banners, billboards, cars, etc.), some could be found in the hands of Protestants who came to the rally, some are known only in a small audience. But all of them are connected by the fact that they lift the patriotic spirit of the nation, bringing faith and hope in our hearts, unite the entire Ukrainian people and unite with people from all over the world who are not indifferent to the situation in Ukraine.

The project is implemented within the coursework and is not commercial. The search for artworks for the digital collection took place on the Instagram, so before each series of artworks there will be a nickname with a link to the profile so that you can easily find the authors. Also, for convenience, for each work of the artist, in the lower right corner, there is a link to this artwork on Instagram.

«I adore my nation so much right now, so thank you everyone who is related to protection of my country and, please, stay strong. Everyone else – please don't stay quiet about Russian crimes. Everything will be Ukraine!»

«I'm horrified at the thought that you just live, make plans, have dinner with your family, walk with friends, just live as a free person in a free country, through all these years the other nation just wish your death.

YAROSLAVA YATSUBA

«NATO! Do you want to see how to properly close?» – this illustrates the case when woman from Kyiv knocked an enemy drone out of the air with a jar of canned tomatoes.

«–What are they looking for? – Who knows with those madmans. – Bindera! – Bondera! – Blendera! – Bender! – Bleatdera! – Beender!» – this illustration shows Kadyrovites which looked for Stepan Bandera who died in 1959.

«Ukrainians now: – The Ghost of Kyiv have a girlfriend. – Oh, shit! – Musk gave us Starlinks once again. – Okay, Google! How to knock out the tank? – I'm going to make two thousand Varenykies for the boys real quick»

РІЗНОМАНІТТЯ УКРАЇНСЬКОГО СПРОТИВУ

«Diversity of Ukrainian's resistance»

«Super-heroes among us! Nastia, risking her own life, saved a big flock of dogs with disabilities during the shooting of Irpen by russian inviter. The girl has a heart much larger than the whole of russia»

«Superheroes among us! Ukrposhta employee Serhii Chizhikov shot down a russian plane while those were bombing Chernihiv. The newest Su-34 aircraft of the occupiers received the Igla-1 MANPADS parcel on time and quickly went to hell for the Kobzon concert. Ukrainian postal service [@ukrposhta](#) commented on the situation:
«That is what I call a good delivery. We are all very proud for our hero!»

«Superheroes among us! In the first days of the war one brave woman from the city of Henichesk explained agricultural instructions to the occupiers. Her words instantly became legendary and prophetic: "You came to our land with weapons. Take these seeds and put them in your pockets, so at least sunflowers will grow when you all lie down here!"»

«Superheroes among us! On March 5, an APC of the world's most pitiful army was driving through the streets. One local guy with a Ukrainian flag in his hands jumped on APC on-the-go. The armored surfer rode to the cheers of the demonstrators who took to the streets to show the enemy that he had no place here»

«Superheroes among us! Ukrainian curses are the first in the world in terms of melody and power. According to the latest statistics, every second woman in Konotop is a witch. This means that the piss-makers of the invaders will shrink as soon as they enter into the energy field of the Konotop administrative district. We're destroying the enemy through fire, words, pixels, letters, notes, laughter and magic»

«Super-heroes among us! Near the Kakhovka, that in Kherson region, local Roma stoled and tamed a russian tank. This was reported by Kakhovka's self-defense»

«Superheroes among us! The defender of the Ukrainian sky. The thunderbolt turned the invaders and their aircraft into a air-chernozem-class humus. The heart-breaker, the better a mysterious pilot. Your most requested character for this series of drawings. The Ghost of Kyiv. Thank you!»

«Superheroes among us! Ukrainians don't lose their humanity and care for their furry friends even during the war. Sisters Olga and Yevheniya Drach saved lives and took off from Kyiv to the safe place of about fifty cats.»

This is an illustration of the story on the island of Zmiinyi with border guard Roman Hrybov who became the author of the well-known phrase. «These words gained considerable power and spread all over the world. They became the international slogan of the fight against racism»

MARTA KOSHULINSKA

 [marta_koshulinska](https://www.instagram.com/marta_koshulinska/)

«This is not the future we wanted for our children. Watch the clear sky, not the shells. With backpacks for a walk, not in bomb shelters. Spend the night in warm beds, not in the subway»

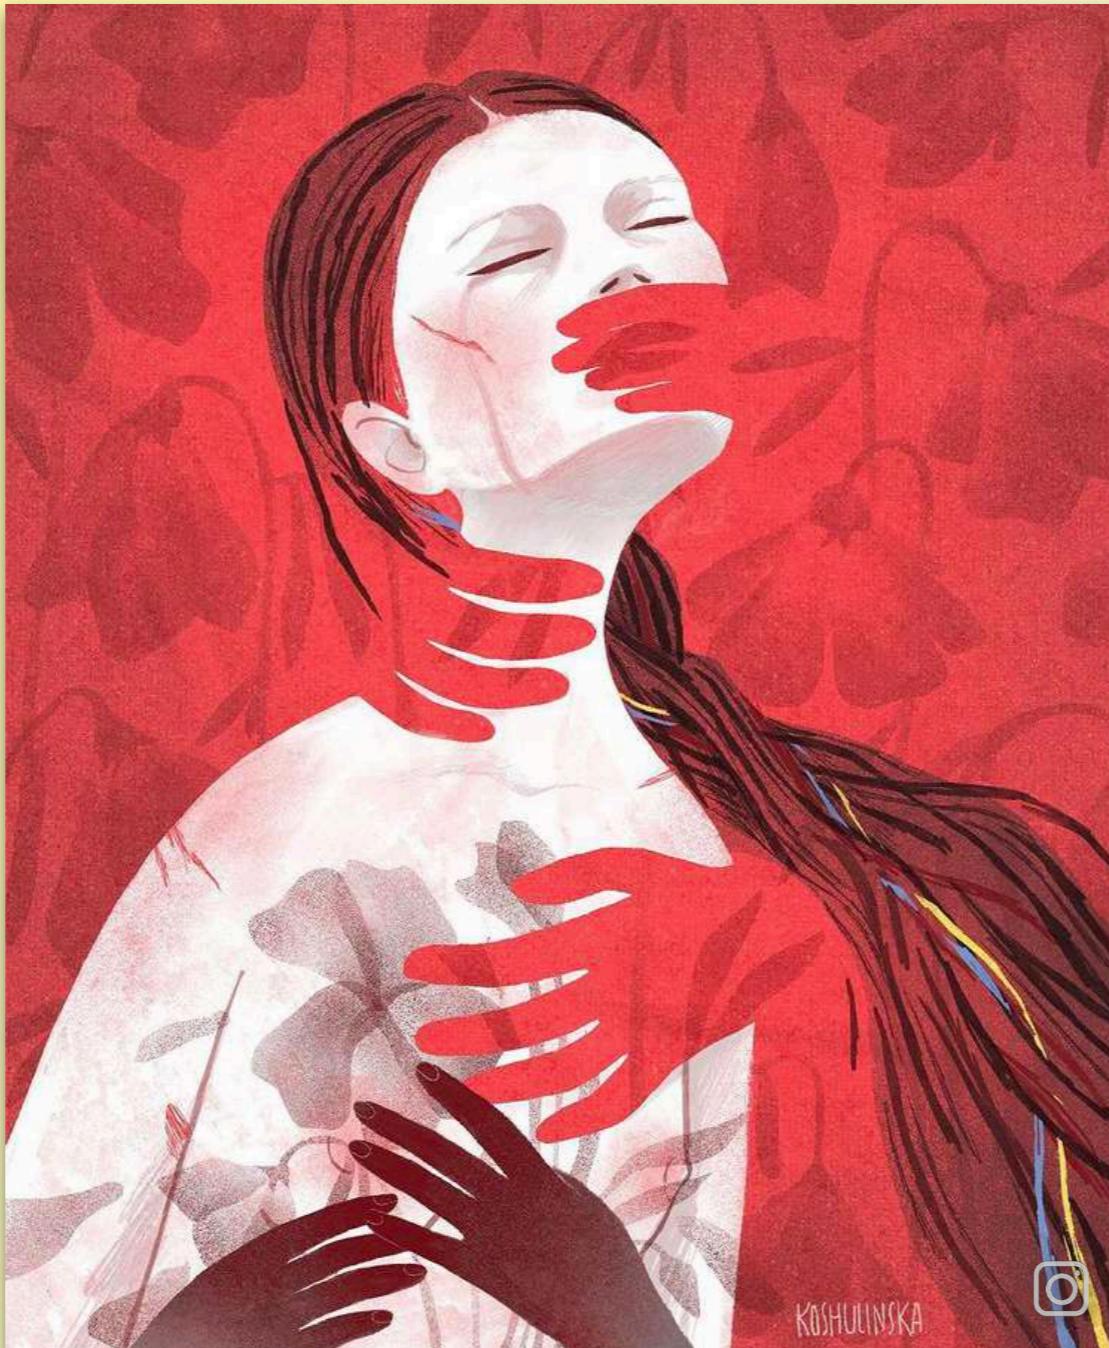

«Now everyone is suffering from the war. Not only people, but also the whole nature together with animals, who do not understand what is happening at all. Shells are directed at shelters, volunteers who bring aid are shot, people leave their pets at home in a panic»

«If Galicians think the city is too calm, you should just go to the station and see what is happening there with your own eyes. Not in the photo. A sea of people, women, children and animals. Who flee into the unknown, just to avoid being blown up by the sounds of explosions and sirens»

«Now more than ever, I want to embrace the whole country in order to protect every city, street, and home. Only considerable internal strength grows and the roots bite into the earth more firmly. Strengthen, rebuild every piece and do everything to prevent this pain and uncleanness again»

«Every day there are more and more photos and videos of raped women, children and even those who are not alive. Just when you think that the occupiers have reached the bottom, information about something even lower appears. But the darkest night is always before dawn. And so the victory is very close»

Expecto patronum is a protective spell against dementors - evil spirits that drain away at people's positivity, energy, and cheerfulness. This talismanic spell works only if you focus on the happiest memories from your life (according to the Harry Potter series of novels by J. Rowling).

«Explosions sound louder than words»

«This is how people disappear: without regrets, without sorrow, bringing war, pain, craters on the heart»

«I'm moving forward. I'm trying not peer into empty eye sockets of burnt houses.

And am in passing ashamed to feel warning air-raid in thought.»

«Our tears will become poison for you»

«The hole»

«I drew yesterday. The first frame is a reference to the work "Ukrainian Night" by the artist Arkhip Kuindza, who was born in Mariupol. Today I woke up and saw the news that the Kuindzhi Museum in Mariupol was destroyed. But the most terrible thing is that they kill children who could become artists or anyone else, kill women, kill our nation»

NIKA AHEYEVA

«A portrait of an air raid siren as I see it»

«On March 9, when this live fifteen-minute concert took place on the Maidan, Kyiv felt differently. For example, the audience of the concert was about 60 people, 50 of whom were foreign journalists. The orchestra played the best music in the world – the national anthem of Ukraine»

«Cargo-200»

MARIA ZHURAVKA

 [@zhuravka_](https://www.instagram.com/zhuravka_)

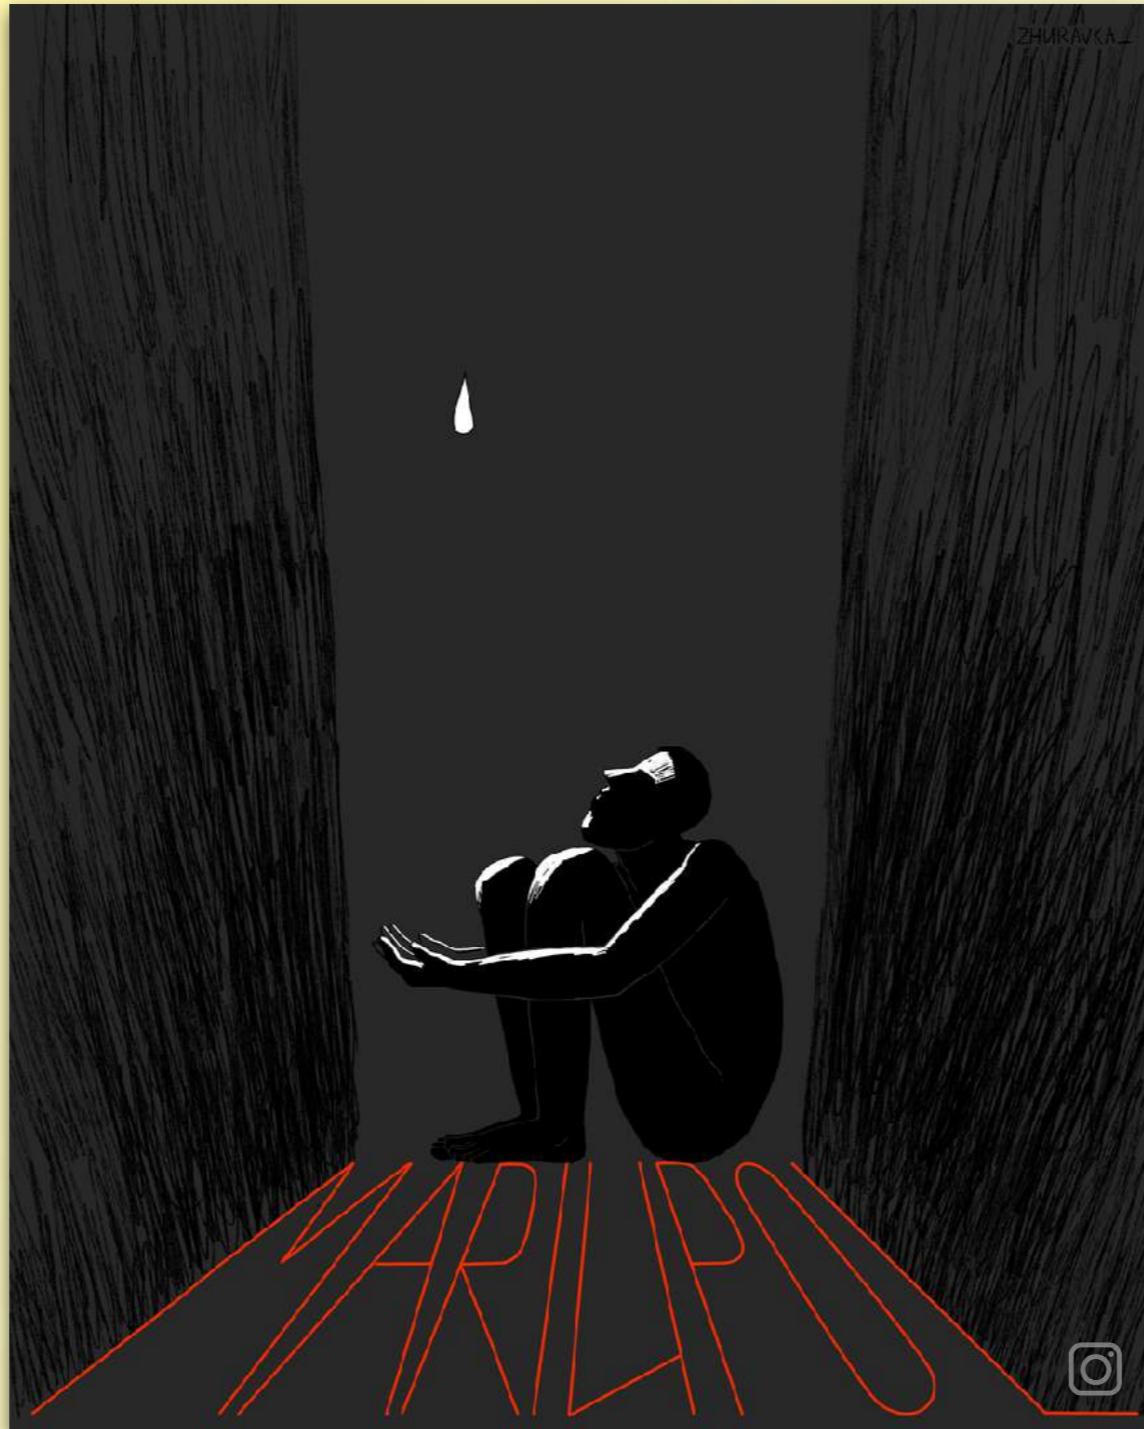

«For a month now, millions of people have been fleeing from death. Save lives.»

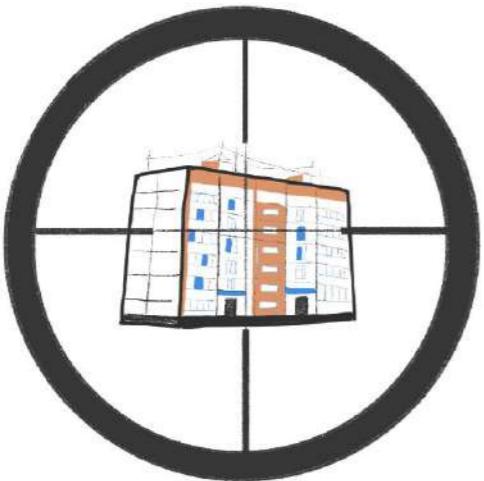

«It hurts to see people who 26 days ago had a normal life, lived in their country full of freedom and tolerant and critical people, had their own home in which to invest energy, not so long ago the whole family celebrated a birthday at home, went to the movies with friends in the evening , walked around the city on the waterfront, went in the winter to snowboard in the Carpathians, someone favorite job, cool team, dreams and plans for the summer, for years - now at one point stand in the open air near the station with one suitcase, and some without. Standing near the tents with help in line for tea. And all that is left is one life.

All this because we were able to afford to have an unlimited sense of inner freedom. And the russians could only destroy and take someone else's life. Some kill, others support them, others remain silent. Each of them is guilty in this war, each!»
